Colorado Department of Health  
 4310 East Eleventh Avenue  
 Denver, Colorado 80220

Attn: Orville Stoddard  
 Division of Radiation and Hazardous Waste

Confirming the substance of our recent contact, we would like to make arrangements for Department technical personnel to visit the Rocky Flats Plant to assure that appropriate measures are being taken at the Plant landfill to protect public health, safety, and welfare. As was indicated to you, only nonradioactive solid wastes resulting from activities managed by our Company for the Department of Energy are disposed in the on-site sanitary landfill.

During the course of a previous visit, we were advised informally that landfill activities at the Rocky Flats Plant did meet all applicable Department requirements. In view of the fact that changed requirements might have come into being since that visit, we would like a current review to be sure that we satisfy State expectations.

Please contact Mr. Donald Haumann at extension 497-4368 when you are prepared to undertake the requested visit and inspection. He will make the necessary arrangements and provide you with all the information that you require.
